

Introduction

It is difficult to comprehend how much the world has changed since March 2020. The COVID-19 pandemic has impacted our students, their families, our staff, and our schools in ways many of us have yet to fully understand. During these unprecedented times, we must reflect on the end of the 2019-2020 school year to learn from our decisions to help inform our actions over the upcoming year.

There is no doubt the 2020-2021 school year continues to provide its own set of unique challenges. As we continue to face continuous changes, it was necessary to make some updates and changes to the reopening plan. It is our goal to utilize this document to prepare our staff, students, families, and Partner Counties and School Districts for the wide variety of situations that we may face in the year ahead.

This document was developed through the collective efforts of the Center for Disability Services staff, including key program administrators and staff representing the nursing, clinical, therapeutic, Facilities Management, Information Systems, and key community stakeholders including: Partner Counties and School Districts and the Agency Medical Director. Feedback from these key stakeholders is integrated into this final version of this document. The Center for Disability Services sincerely thanks each person who played a role in the development of this document.

It is anticipated that this document will be updated, as additional guidance is provided by the Centers for Disease Control (CDC), the New York State Department of Health (DOH), the New York State Education Department (NYSED), Local Health Department, and as our collective understanding of the COVID-19 virus evolves. We affirm we have reviewed and understand the State-issued guidance and submit reopening plans prior to reopening.

It is the Center for Disability Services' goal to utilize this document, with its included safety procedures, to keep our students and staff as safe as possible as we reopen our programs. If we each accept our role and responsibility to implement the practices set forth, we will be able to achieve our goal to reduce the risk of spreading COVID-19, and to create an environment where our students can achieve their greatest level of independence.

School Operations or Activity	Steps to take
General Information	<p>Langan School Age and CloverPatch Albany and Glenville sites</p> <ul style="list-style-type: none"> All details of the reopening plan are applicable to all education sites individual site differences will be highlighted. The reopening plan will be posted on the Center website and Google classroom pages at all education sites. The website may be utilized for mass communication measures. The agency website may be used to post general information about health and safety standards with guidance from the CDC, DOH, and DOE, as well as changes in the program model. This method relies on parents/guardians checking the website and Google classroom pages for updated information, as it will be one of the methods of communication. The reopening plan was created with input and feedback from school staff, administrators, medical director, staff from St. Margaret's which is an affiliated organization, nurses present at a Regional Nurses Meeting as well as guidance from local DOH, DOE, and OCFS. Written protocols have been created for multiple areas see <i>Appendix</i> Staff and students will report five days a week in person for their scheduled school and work hours. A virtual instruction option is still available for students. <p>Langan School Albany school age site will operate from 8:30-2:30.</p> <p>The classroom located at St. Margaret's will operate 9:00-3:00. St. Margaret's classroom will operate on an AB schedule.</p> <p>Clover Patch Albany and Glenville sites will be 8:30-1:30.</p> <p>CloverPatch Head Start at the Schenectady site will operate in person 5 days a week.</p> <ul style="list-style-type: none"> DOE approved a second classroom at St. Margaret's in October 2020. The two classrooms will follow an AB schedule where eight students would report to each classroom at a time to allow for social distancing guidelines to be followed. Kalotta Hemingway is the designated staff to deal with COVID issues with staff and students A site safety monitor will be designated to assure continuous

compliance with all aspects of the safety plan at the Glenville CloverPatch site. The site safety monitor will be the central point of contact for reviewing all screening questionnaires. This person is Patti Roberts

- We allow limited visitors based on educational program needs (i.e. school district tour for upcoming placement). Visitors would be expected to follow all rules and guidelines as staff do (i.e screening process upon arrival, taking their temperatures, and wearing a KN95 mask). A student intern for each clinical area will be allowed within the Education division. The student interns will follow all rules and guidelines as staff do (i.e. screening process upon arrival, taking their temperature, and wearing a KN95 mask).
- Meetings and trainings will be held virtually on occasion a training may be done in-person if all rules and guidelines can be followed for socially distancing with a maximum of 14 people.
- Parents will be asked to complete a weekly COVID screening which includes COVID related questions. The screen will be completed via Google Docs, email, and/or phone calls.
- Signs will be posted throughout the building that state face coverings should be worn.
- Hand hygiene is critical as all staff and students should wash their hands, use hand sanitizer, and/or hand washing wipes when they walk in the building and throughout the school day.
- Hand sanitizer stations will be located throughout the building.
- Classrooms will be set up and activities designed to encourage social distancing but due to the nature of the core function of education (instruction, therapies and changing needs of our students) 6 feet of distance in between individuals may not always be possible. Staff will be required to wear a face covering at all times. Staff will be provided opportunities to not wear a face covering when not around other staff and students i.e. lunch.
- Any student who is unable to medically tolerate such a covering, including students where such a covering would impair their health or mental health, or would present a challenge, distraction, or obstruction to educational services would be discussed as a team and a decision would be made with the involvement of a school administrator and medical director.
- Valve face coverings are not an acceptable face covering.
- It is an expectation that students will wear acceptable face coverings. If a student refuses due to behaviors to wear a face covering a face shield will be attempted. If the student refuses to wear either a plan will be put in place to increase their tolerance and length of time to wear it. Data is recorded on this and reviewed on a regular basis.
- Staff and students will not share community supplies
- Therapists will be allowed to leave when sessions are completed to document from home. The expectations for documentation will remain in place
- Therapy/service animals will not be allowed at any of the education sites until further notice

Prospect School Age and Preschool

- All details of the reopening plan are applicable to all education sites individual site differences will be highlighted

<p>Testing and quarantine and closure protocols</p>	<p>All Education Sites</p> <p>The education sites are committed to keeping your child healthy and safe. Our schools have put in place numerous safety precautions to enable children to return to school for in-person learning. Our COVID-19 policy outlines what procedures will be followed in the event a student or staff arrives at school, or is kept home from school with signs and symptoms of the novel Coronavirus. Outlined here are steps that must be followed by all</p>

individuals:

1. Anyone presenting with signs and symptoms of COVID-19 will be isolated and sent home immediately
2. That person will be instructed to follow up with their healthcare provider for evaluation and determination of the need for COVID-19 testing
3. If the individual does not have a healthcare provider they will be instructed to go to an urgent care or clinic for evaluation and testing determination
4. The individual will not be allowed to return to school without written documentation of a negative COVID test or alternate diagnosis from a healthcare provider if COVID testing is not deemed necessary, and the individual is asymptomatic.
5. The school will work closely with the family and assist them in navigating this process. The nurse will provide testing site information to parents and staff when requested.
6. The school will notify the local department of health of any positive test results and follow their recommendations for contact tracing, isolation, and or quarantine
 - Upon request of the local health department the school will notify staff and families of any pending quarantines and encourage them to follow the recommendations of DOH once they receive their official notice.
 - The school will work closely with DOH and provide them with accurate staff and student information for contact tracing.
7. In the event of a student or staff quarantine, the school will keep in contact with staff and families throughout the quarantine period via email and telephone.
 - The school will work with families to transition students to virtual learning during a quarantine.
 - The school will work with the school district and or counties to ensure families have equipment for virtual learning.
8. In the event of a positive case the school COVID-19 coordinator, Kalotta Hemingway, will oversee all aspects of closing and reopening the school working closely with the local department of health.
 - The school will work with families to transition students to virtual learning during a school closure.

Contact tracing

Langan School and CloverPatch Preschool in Albany

- All education sites will notify the state and local health department immediately upon being informed of any positive COVID-19 diagnostic test result by an individual within school facilities or on school grounds, including students, faculty, staff, and visitors. In the case of an individual testing positive, the school sites have the following plans in place to assist the local health department with contact tracing:
 1. Daily attendance record of students and staff will be taken and filed for tracing purposes
 2. Student and staff schedules will be kept up to date and changes made aware to the health director immediately
 3. **Visitors are limited at this time.** In the event that a visitor must have access to the building a record will be kept of the date, time, and location within the building visited
 4. Contact information for staff, students, and visitors will be kept confidential and made available to the local department of health upon request
 5. All education sites will cooperate with all state and local health department contact tracing, isolation, and quarantine efforts
- Sign-in sheets are located outside of each classroom and heavy traffic areas for staff to sign in and out including: date, their name, and time in and out of the location.
- Teachers and therapists will keep schedules updated and alert supervisors of any changes daily.
- Updated telephone numbers and addresses are on file for staff and students.

The student will be wearing a mask or face shield as tolerated. The staff will be in full PPE(K95 mask, gloves, gowns, face shield or goggles .
- Students in the Preschool isolation room during a fire drill will be escorted out of the building using the door closest to the isolation room and maintain 12 feet distance from all other students and staff. The student will be wearing a mask or face shield as tolerated. The staff will be in full PPE (K95 mask, gloves, gowns, face shield or goggles.

Training and Communication

Langan School and CloverPatch Preschool in Albany

- Trainings should be held virtually when possible
- Staff will be provided with mandatory training prior to returning to work regarding COVID-19 in the following areas: disease symptoms, transmission, basic safety practices, self-monitoring, employer and employee responsibilities, use of face covering, PPE, respirator protection, cleaning and disinfection, signage and language, altered work practices during COVID-19 pandemic, review all protocols with employees, and training for temperature screeners, and discuss designated isolation areas. Training was provided on 6/25/2020 and 9/8/2020.
- Staff were provided with mandatory social-emotional training prior to returning to work so they are equipped to support students when school reopens. Training was provided on 6/25/2020 and 10/9/2020, as well as on an ongoing basis
- Training and support will be provided to staff and students by the social workers through a program called *Exploring Emotions During the Era of COVID 19*
- On-going training will be provided at team meetings, program meetings, and on the Nursing Google Classroom in needed areas
- Training was provided for staff to illustrate traffic flow and appropriate spacing
- Training was provided during summer program for teachers and clinicians on how to provide instruction throughout the school day while social distancing
- Training was provided during summer program for teachers and clinicians in regards to effectively supporting students and managing student behaviors when school reopens
- Proficiency check offs will be completed with all staff to ensure proper putting on and removing of PPE, reuse protocol, and proper hand washing
- Training was provided on cleaning and disinfecting procedures on 9/8/2020, as well as on an ongoing basis
- Ongoing training and communication of information takes place at program meetings on a regular basis.
- Each education program/classrooms will have a lead team member to decide which students and families may need social-emotional resources and support
